RE: 05MN047 – Conformity Determination for the NIRB's Reconsideration of Terms and Conditions within Project Certificate No. 003 for TMAC's Doris North Project and Request to amend Water Licence 2AM-DOH1323

Attention: Mr. Barry

Environment Canada has completed a preliminary review of the information provided in support of TMAC's request that Nunavut Impact Review Board reconsider the conditions of Project Certificate 003 and that Nunavut Water Board amend Water Licence 2AM-DOH1323. Environment Canada's review was based primarily on the mandated responsibilities for the enforcement of Section 36(3) of the *Fisheries Act*, the *Canadian Environmental Protection Act* (CEPA) the *Migratory Birds Convention Act* (MBCA), and the *Species at Risk Act* (SARA). Environment Canada provides the information requests in the attached table to assist both the NIRB and the NWB in their review of TMAC's proposal.

Environment Canada is of the opinion that it would be most efficient to hold both the technical meeting and the prehearing conference via teleconference.

Should you have any questions regarding the foregoing please contact Mark Dahl at (204) 983 4815 or via email at mark.dahl@ec.gc.ca.

Sincerely,

Margaret Fairbairn

RE: 025M047 - Conformity Determination for the NRB's Reconsideration of Terms and
Conditions within Project Certificate No. 003 for TMAC's Doha North Project and Request
to Amend Water Licence 2AM-DOH1323

Attention: Mr. Barry

Environment Canada has completed a preliminary review of the information provided in support
of TMAC's request that Nunavut Impact Review Board reconsider the conditions of Project
Certificate 003 and that Nunavut Water Board amend Water Licence 2AM-DOH1323.
Environment Canada's review was based primarily on the mandated responsibilities for the
enforcement of Section 38(3) of the Fisheries Act, the Canadian Environmental Protection Act
(CEPA), the Migratory Birds Convention Act (MBCA), and the Species at Risk Act (SARA).
Environment Canada provides the information requests in the attached table to assist both the
NIRB and the NWS in their review of TMAC's proposal.

Environment Canada is of the opinion that it would be most efficient to hold both the technical
meeting and the ongoing conference via teleconference.

Should you have any questions regarding the foregoing please contact Mark Doherty at (204) 953-
4815 or via email at mark.doherty@ec.gc.ca.

Sincerely,

Margaret Farnham
