Subject: 05MN047 &amp; 2AM-DOH1323: Clarification on numbering of responses to KIA and AANDC IRs

To: Sonia Aredes &lt;sonia.aredes@nwb-oen.ca&gt;, "kgillard@nirb.ca" &lt;kgillard@nirb.ca&gt;

Cc: "jroesch@qiniq.com" &lt;jroesch@qiniq.com&gt;, John Roberts &lt;john.roberts@tmacresources.com&gt;, Katsky Venter &lt;katsky.venter@tmacresources.com&gt;

Sonia, Kelli,

In providing information requests (IR), the KIA provided a letter and an attachment. The cover letter contained unnumbered questions and requests in the body of the letter as well as 13 numbered IRs. The attachment contained 52 numbered IRs.

For ease of review and reference, TMAC tabulated, numbered and responded to all information requests. Numbering of the IRs in the TMAC response table is as follows wherein **bold** indicates TMAC's numbering :

- KIA cover letter, unnumbered questions/requests: **1-KIA** to **30-KIA**.
- KIA cover letter, numbered requests 1-13: **31-KIA** to **39-KIA**, **50-KIA** to **52-KIA**.
- Table attached to KIA cover letter, IRs identified as KIA-1 to KIA-52: **KIA-1** to **KIA-52**.

It should be noted that an error was made when numbering the responses; 40-KIA to 49-KIA do not exist.

Further, it should also be noted that AANDC provided separate IRs to the NIRB and to the NWB. Responses to both sets of IRs have been include in TMAC's submission. IR's identified as **AANDC-NIRB IR#x** are those provided to the NIRB. IRs identified as **AANDC IR#x** are those that were provided to the NWB.

Should you have any further questions regarding the IR responses, don't hesitate to give me a call.

Kind regards,  
Sharleen
