Hello Karén, I have been trying to arrange three-way teleconferences with KIA, TMAC, and CIRNA to discuss the reclamation security and land and water split for the Hope Bay Project Phase 2. CIRNA will not be available to do this until September 19 and 20. Given the final submission date is September 21 and that we have not heard yet from the Minister on the NIRB report or approval of the NIRB project certificate, the KIA requests that the final submission date be changed to September 28.

Please let me know if this can be arranged.

Thank you

John
