ECCC representation at the Doris North Technical Meetings:

Mark Dahl and Meagan Tobin will represent ECCC in person at the above mentioned technical meetings and Chris Doiron and Myra Robertson will participate on the phone should they be required to address questions related to the metal mining effluent regulations or wildlife.

With regard to the format of the technical meetings:

ECCC notes that the agenda is currently formatted such that interveners make presentations and are questioned sequentially. Given that many of the interveners have overlapping mandates and share common issues it would seem more efficient to organize the meeting on a theme basis where all interveners with an interest in a given issue could contribute to the discussion. ECCC therefore encourages the NWB to organize the meeting around themes rather than around intervener presentations as it would avoid repetition and would encourage technical discussion.

Please contact me if you require more information.
