Hi Sonia,

Provided below in **blue font** are INAC's response to the commitments referenced in your email from yesterday and the table of commitments.

Please don't hesitate to contact me for further information.

Regards,
David

Commitment #2 Satisfactory explanation of measures that will be implemented to ensure water will not pond against the edges of the thermal rock fill pads after closure.

The explanation provided in the submitted February 3, 2016 Interim Closure and Reclamation Plan addendum are satisfactory. It is noted that TMAC has committed to update the plan with this addendum prior to Operations.

Commitment #3 Tailings Management Plan to be revised to include use of environmentally suitable chemical dust suppressants.

We agree that this commitment is resolved. Not only has TMAC provided a list of materials, our consultant deems them suitable. The approval process for the use of alternate suppressants (not included in plan) needs to be determined.

Commitments #11, 12, 13 & 14 Regarding the monitoring programs.

Commitment #11 to 13 have been fulfilled.

Commitment #14 is pending because details for monitoring are still being worked out.

Commitment #23 Groundwater Management Plan

This plan has been submitted, we have reviewed it and TMAC has provided a response to our comments. We have not yet had time to look at their comments and are still discussing pumping groundwater at higher rates than expected. We agree that TMAC has fulfilled their commitment by providing the plan but do not judge this issue to be resolved.

Hi Sonia,

Thanks for the opportunity to review and comment. See below (red text) and attached for TMAC's comments.

Regards,

Sharleen

Subject: Re: Updated Table of Commitments - Doris North Pre-Hearing Conference

Hi All

Sorry I forgot to put deadline: The deadline for comments is Wed June 29 at noon.

Regards

Sonia

On Mon, Jun 27, 2016 at 4:00 PM, Sonia Aredes <sonia.aredes@nwb-oen.ca> wrote:

Hi All

Please, find attached the updated list for your review and comments. There were other commitments made during the PHC, which are not in the table but are nevertheless important. These commitments are:

- TMAC will provide its written response to the technical review comments provided by the intervenes in advance of the Pre-Hearing Conference by Wednesday June 29th, 2016.

Replace above bullet with: TMAC will provide its written response to the technical review comments provided by the interveners **on June 22** in advance of the **Public Hearing**, by Wednesday June 29th, 2016. **TMAC will provide a written response to Party comments received after June 22 under separate cover at a later date, and if possible in advance of the public hearing.**

- Environment and Climate Change Canada will provide its technical review comments by Tuesday June 28, 2016.

- NRCAN will review the management plans submitted by TMAC, in particular submissions that relate to or give rise to issues concerning permafrost, and advise the NWB that there are no issues or concerns that NRCAN believe would require its expertise or further participation in the NWB water licensing process of the application to amend the Type A Water License 2AM-DOH1323 by July 8th, 2016 at the latest.

Regards

Sonia
