Hi Karén,

INAC made Commitment # 17 during the Technical Meetings held in Cambridge Bay on May 14 and 15, 2018, which was documented in the NWB correspondence on May 29, 2018. The commitment was for "INAC to provide comments on updated Reclamation Cost Estimate provided by TMAC to the NWB (April 25, 2018) by July 3, 2018". On July 4, 2018, we contacted INAC (Sarah Forte) via email to ask for status of the commitment. On July 5, 2018, Sarah Forte responded via email that INAC "communicated with the Water Board asking for extensions until July 10th for several files including this one." TMAC has not been made aware if this extension was granted, nor have we received any update on the status of this commitment to date.

On March 29th, the NWB wrote to parties reminding them of the importance of meeting timelines with regard to this process. I hope that this can be resolved ASAP in fairness to TMAC and our consultants.

Please advise.

Thanks,

Oliver

Hi Oliver,

Yes INAC previously requested extension for submissions for a list of files. While the NWB notified Proponents and relevant distributions, we missed to include TMAC for notification. This is an oversight, sorry for confusion. The NWB hopes to get INAC submission very soon as advised by Sarah.

Thanks Karen. We will continue to wait for the submission.

Sarah, if you could please qualify what very soon means, so that we can re-plan for the submission.

Also, as usual, we are always willing to get on the phone and discuss items. It's apparent from our technical meetings that a number of basic items could have been resolved prior to the technical meetings if we were engaged in discussion. So the same applies here. Please don't hesitate to reach out.

Thanks,

Oliver

Hello Oliver,

I am confirming with our consultant his availabilities. I agree that a discussion will be necessary for the reclamation estimate and will get in touch with you with proposed times.

Regards,

Sarah
