Subject: RE: Doris North Project 2AM-DOH KIA Presentation - errata

Hi All,

KIA discovered an error in our submission and we wanted to inform the distribution list and the NWB of this error. The 4th paragraph of page 14 of the KIA submission contains an error saying that KIA understands that the INAC reclamation security estimate for water at the Doris North project was 1.2 million dollars. KIA did not see the INAC reclamation estimate prior to submitting the KIA submission to the NWB, so there was no way that KIA could accurately know what the INAC estimate for water reclamation would be. Based on the Miramar submission using the RECLAIM model and the KIA reclamation model, KIA expected the water related reclamation, not including mobilization or management fees to be about 3-4 million dollars, which is the figure that should have been used in the 4th line of page 14 instead of 1.2 million dollars. This error does not affect KIA's position in our submission regarding reclamation security, but we wanted to apologize if we caused any confusion.

Thanks,
Geoff
