> Hello Ali, I have prepared a Final written submission for the Type A Water License Amendment for the Doris-Madrid mine site. I will be sending this to Cory Barker today for his review and for later submission on September 10th. The submission is based on what has occurred to date in discussions with CIRNAC and on correspondence with CIRNAC.

On going discussion on the security quantum will be held on September 10th next week which may come to resolution and KIA and CIRNAC have yet to directly discuss the land and water split of the security. There has been only correspondence to date.
