Re: 2AM-DOH1323 AANDC July 18-19, 2015 Inspection Report Required Action Item

Dear Ms. Paul;

In follow-up to your site visit July 18 and 19, 2015 to the Doris North mine site under NWB Licence 2AM-DOH1323, and in response to the Action Item identified in your Water Licence Inspection Report, TMAC is pleased to provide location information to close out historical spills on file with the NT-NU Hotline.

Many of the spill incidents at Hope Bay pre-date TMAC ownership of the project (March 2013), and in addition to those relevant to the Doris North Licence 2AM-DOH1323, several occurred and were reported under the Boston Advanced Exploration and Regional (Windy) Exploration program licences. Location references have been provided where they were available.

A summary report is provided in the table below (Table 1), and your original file with additional notations will be returned to you as an email attachment.

If you should need any further information, please feel free to contact me.

Regards,

A handwritten signature in blue ink, appearing to read 'John Roberts', with a stylized flourish at the end.

M. John Roberts
Vice-President Environmental Affairs
TMAC Resources Inc.
