Good afternoon,

CIRNAC is requesting an extension of another few weeks to allow CIRNAC to discuss the discrepancies between the amounts found in the security review to allow for a possible smother process. CIRNAC recommends the 18th of August as the new deadline.

Thank you and have a wonderful day

Good afternoon Robert,

Thank you for the opportunity to review the Reclaim Package in support for the security review for the Doris Project Water license 2AM-DOH1335.

An initial scan of the documents Nunami Stantec Limited has provided is missing information. Stantec has not provided in their reclaim version their unit rate tab detailing how they came up for the rates and what the rates are. This unfortunately prevents us from making a line comparison and ensuring our models compatibility with that of AEM's.

We would ask the board to reach out to AEM and request a completed reclaim 7 version that we can use for our review.

Additionally, given recent unfortunate events CIRNAC finds itself working on many fronts to retain service delivery and as such will require an extension to this file. We suggest the 28th of July for our completed submission

Thank you and have a wonderful day
