Re: Notice of Doris North Camp Re-Opening

Ms. Farrow,

Thank you for your letter dated March 19 notifying AANDC of TMAC's intent to re-open Doris Camp. I would like to request clarification, as the letter does not specify *when* Doris Camp will be re-opening. Please provide specific dates when you anticipate the site to be re-opened.

I will also request at this time a description of your anticipated activity on-site for 2013. Please describe the scope of the activities that are planned, how much of the facility will be reopened, how many people will be on-site, what resources (fuel, equipment, explosives, cyanide etc.) will be mobilized to site, whether this is expected to be a seasonal or year-round operation, and any other details you feel may be relevant.

With respect to the discharges discussed in the letter, please ensure that sampling results are provided to me prior to discharge, clearly labelled by monitoring station. As the site and the WWTP have been closed down, I would like to review the results prior to discharge commencing.

Welcome to Hope Bay, and I look forward to working with you.

Regards,

Eva Paul
