Dear Sirs and Madam;

Please accept this letter as notification that TMAC plans to construct mill foundations at the Doris North site, commencing in the summer of 2015. The mill building materials are scheduled for delivery on the 2015 sealift. The actual milling equipment is currently being designed and will be delivered to site on the 2016 sealift. In addition, underground mine development, driving tunnels to access ore and test stoping, will commence shortly. This work is being carried out within the scope of the existing Project certificate 003 and water license 2AM-DOH-1323.

As such, the Doris North site is moving out of care and maintenance and certain monitoring and reporting requirements in the Project Certificate and the Water license will be adjusted accordingly. If you have any questions or comments please let me know.

Kind Regards,

A handwritten signature in blue ink, appearing to read 'John Roberts', with a stylized flourish at the end.

M. John Roberts  
Vice President Environmental Affairs  
TMAC Resources Inc.
