Re: Hope Bay Water Licence 2AM-DOH1335 Part J, Item 5 - Doris-Madrid Care and Maintenance Plan

Dear Mr. Kharatyan,

Agnico Eagle Mines Limited (Agnico Eagle) announced its decision on February 18, 2022 to place the Doris Mill into Care and Maintenance and suspend production of the Hope Bay Project. On March 30, 2022, Agnico Eagle provided the Nunavut Water Board with formal written notice of Care and Maintenance for the Doris-Madrid operations under Part J, Item 4 of the Water Licence 2AM-DOH1335 (Water Licence).

As required by Part J, Item 5 of the Water Licence, Agnico Eagle is providing the Doris-Madrid Care and Maintenance Plan. In accordance with the Water Licence, the plan details the site activities to continue and/or to be initiated through the temporary suspension period. The Care and Maintenance Plan provides the key roles and responsibilities of the site personnel, activities to be implemented for the maintenance of mine site facilities, management and monitoring measures, and procedures to be implemented in accordance with temporary closure goals and regulatory requirements.

Further, Agnico Eagle has made updates to three management plans to incorporate care and maintenance activities and has provided the Doris-Madrid Water Management Plan, Explosives Management Plan, and the Operations, Maintenance, and Surveillance Manual: Doris Tailings Impoundment Area.

Should you have any questions, please do not hesitate to contact the undersigned.

Sincerely,

Jamie Quesnel
Director, Permitting & Regulatory Affairs
Agnico Eagle Mines Limited
