

Hi all,

With regards to your question for adding a permanent turnout to the Doris-Windy Road, we don't see a problem from an engineering standpoint. If you were to place this turnout on the east side of the road just south of bridge #3, it would provide safe pullout access for both directions of travel as well as temporary parking for anyone needing to monitor the bridge.

Please seek ESR's approval before moving forward.

Regards,

Murray McGregor *E.I.T.*
