Key Trench	• •

SURVEY:

Required	• •
Data Received	• Original Ground for Doris North Water Diversion Bern • EG 120106 DN DIVERSION BERM
Outstanding	•
Upcoming	•

NORTH DAM/FROZEN CORE PLANT PAD:

- Clearing of snow within the key-trench has started. Dirty snow is being dumped onto the ice of Tail Lake. Clean snow is being dumped where the North Dam Access Road connects to the Secondary Road which is downstream of the North Dam.
- Frozen Core Plant is being serviced and tested.

GENERAL:

- The Doris Lake Ice Airstrip is in full operation so flights are arriving from Edmonton with a short stop in Yellowknife.
- Due to limited number of passengers, Friday's scheduled B737 flight has been cancelled. Those people originally scheduled for this flight have been moved to Thursday's flight.
- Those who had a full orientation and obtained a site driver's license last year will only require a ~ 2hr refresher training session while the driver's license remains valid.

MATERIAL TESTING:

Item	Area	Sample ID/File Name	Notes
Sampling & Testing Completed	Frozen Core Plant /North Dam	•	
Sampling Required	North Dam/Frozen Core Plant	•
