Hi Phyllis,

For further clarification, AANDC will prepare comments on three of the four plans for the 29th June, but at this time we are not prepared to provide feedback on the closure and reclamation plan. We would prefer to provide comments on the closure plan and the reclamation estimate after the company has settled on its plans and submitted a final version of the plan as part of the upcoming licence amendment. This is to avoid un-necessary duplication of work on our part.

If you have any questions please contact me directly.

Hi Phyllis,

Due to the nature of the technical aspects of the four operational plans requiring technical comments, Aboriginal Affairs and Northern Development Canada is asking for an extension of the comment period to June 29, 2014.

Regards,

Ian
