**Re: Agnico Eagle's Notice of Activity – Naartok East Exhaust Ventilation Raise**

Dear Mr. Kharatyan,

Agnico Eagle Mines Limited (Agnico Eagle) is writing to provide the Nunavut Water Board (NWB) with notification that it intends to move an approved vent raise (Naartok East Exhaust Ventilation Raise) at Naartok by 20-25 meters. This activity will occur in November-December 2024. The vent raise location has been approved through the Modification – Development of Madrid East Naartok Portal to Water Licence 2AM-DOH1335 in August 2022:

*The Notice of Modification outlined Agnico Eagle's plans to access the Madrid East underground from a previously assessed portal [...]. Related infrastructure at the Naartok portal area will be similar to what has been permitted at the existing Madrid East Portal and includes water management infrastructure, vent raise, laydown area, power generation, and access roads.*

The location of the Naartok East Exhaust Ventilation Raise move is shown in Figure 1.

Should you have any additional questions or need further clarification, please contact the undersigned.

Regards,

Colleen Prather
