Subject: HBML Notice of Care and Maintenance

Hi Dionne and Stephanie,

KIA is aware of the filings that HBML has made for the Doris North project and their proposal for care and maintenance of certain parts of their project. KIA has been briefly updated by HBML over the last few months and weeks on this proposed idea. We had always informed HBML that we would reserve comment until we saw the details. The filings to NIRB and NWB are the details for KIA.

During this period of review for the HBML proposal, I would ask both NIRB and NWB to pay particular attention to KIA's comments as this entire project occurs on land that is privately owned by Inuit and KIA has many important agreements related to the Doris North. We will do our best to meet the May 29th submission guidelines, but we may need to ask for an extension if it is in the best interest of Kitikmeot Inuit beneficiaries as we have a lot to consider. I will keep you informed.

Thanks,
Geoff
