**Date:** Thursday, June 16, 2011 11:57:00 AM

---

This is to advise that, to my knowledge, the Nunavut Water Board is not in receipt of any correspondence between Tahera and the Minister of Indian and Northern Affairs Canada (INAC) to transition the Jericho Mine Site to INAC care and maintenance.

Regards,

---

**Subject:** Care and Maintenance transfer from Tahera to INAC

Hello Phyllis,

In a letter from Tahera, dated December 8, 2008, to Kevin Buck, Manager of Water Resources Division of INAC at the time, the company provides confirmation that they were no longer able to "continue to support the Jericho Site Care and Maintenance". Tahera also state that "discussions have taken place to transition the site to INAC care and maintenance should it be requested and warranted by the Minister". To the NWB's knowledge, was this request ever made? Was anything ever provided that was signed by the Minister?

Your assistance is greatly appreciated.

Kind regards,  
Allison
