

March 10, 2005

Philippe di Pizzo  
Executive Director  
Nunavut Water Board

RE: Jericho Diamond Mine Project Certificate No. 002

Mr. di Pizzo:

As a result of the regulatory meeting on February 16, 2004, I am writing this letter to determine:

- a) Key Contact Person, including the department and/or branch responsible;
- b) Any legislation and/or guiding documents;
- c) Any licenses/permits or any other regulatory instrument that have been or will be issued to the proponent; and
- d) Reporting requirements

for the areas of the NIRB issued project certificate that the Nunavut Water Board has been identified as having a primary role in, as well as, the areas where the NWB would act in an advisory capacity.

I have included a table, which I would like for you to fill out. Please note that the advisory roles have been highlighted in the accompanying table. The first half of the table columns are from the existing Appendix C of the project certificate, the second half of the columns are those which you shall be filling in with the information I am requesting above.

Please do not hesitate to contact me if you any questions.

Sincerely,

Jennifer Bishop
