Re: Final Wildlife Monitoring and Mitigation Plan for Tahera Diamond Corporation

Dear Mr. Missal:

On May 15, 2007, the Nunavut Impact Review Board (NIRB or Board) received Tahera Diamond Corporation's 2007 *Wildlife Mitigation and Monitoring Plan for the Jericho Diamond Project* (WMMP). Tahera incorporated many of the suggested requirements and recommendations that were put forth by the NIRB on April 20th, 2006 into the revised WMMP.

With the changes incorporated, the NIRB feels that the current WMMP fulfills the wildlife monitoring and mitigation requirements of the Jericho Project Certificate. However, if Parties feel that the current plan submitted by Tahera on May 15th, 2007 does not meet the above criteria, then Parties should contact Tahera directly to address any concerns or recommendations such that a satisfactory final WMMP is developed and implemented. The NIRB is requesting that Tahera copy NIRB on all correspondence between concerned Parties and Tahera in this regard.

If you have any questions, please do not hesitate to contact me at sgranchinho@nirb.nunavut.ca or 867-983-4606.

Sincerely,

Sophia Granchinho
