Hello Phyllis,

This is agreeable to Shear. We appreciate INAC providing us with the technical information as we have our team members assembled for this weekend to maximize our time and opportunity to prepare for the technical meeting.

Thank you,
Allison

Good day Allison and Pamela, INAC have provided the following as reason for the request of extension. Please advise your acceptance.

Quote "Would it be agreeable to both you and Shear that I send you INACs technical information requests today, so that Shear may have them immediately; and to have our intervention letter that puts the technical information requests into context, on Monday?

The reason for the delay in the development of our materials is due to resource and capacity issues. However, I can commit to sending the technical information requests today.

Would this be agreeable?

Thank you,

Tanya" End Quote
