

OPERATIONS, MAINTENANCE AND SURVEILLANCE MANUAL JERICHO DIAMOND PROJECT, NUNAVUT

EXECUTIVE SUMMARY

The Operations, Maintenance and Surveillance Manual (OMS) is intended to define the requirements of the operation, maintenance and surveillance/monitoring of the dams and dykes for the Processed Kimberlite Containment Area (PKCA). The OMS has been developed to assist Shear Diamonds Ltd. (Shear) in safely operating the facility, maintain it in good condition, and monitor its performance.

This document has been developed in accordance with the Canadian Dam Association Dam Safety Guidelines (CDA 2007) and a template provided by Alberta Environment. It is being submitted in accordance with the water licence: Part F, Item 1; Schedule F; Part H, Item 1; Schedule H; Part J, Item 1; and, Schedule J.

This document will be merged with the Processed Kimberlite Management Plan (PKMP) once it is revised.
