Mrs. Phyllis Beaulieu Manager of Licensing Nunavut Water Board P.O. Box 119 Gjoa Haven, NU X0E 1J0

<u>via Email to:</u> licensing@nwb.nunavut.ca

Dear Mrs. Beaulieu:

Re: SPILL CONTINGENCY PLAN

JERICHO DIAMOND MINE - NWB1JER0410

The Department of Environment (DOE), Government of Nunavut has reviewed the Spill Contingency Plan for the Jericho Diamond Mine, Benachee Resources Inc., Nunavut". This report was submitted to the NWB by Benachee Resources Inc. as a requirement of Part J, Item 1 of water license NWB1JER0410. The plan is adequate and contains all of the necessary components; however more information is needed on a couple of items in order to complete the plan.

Comments/Recommendations:

- A more detailed description of the project area making sure to include the location, size, and storage capacity of all facilities located on site. This is important if persons are unfamiliar with the facility or area.
- 2) The site map that is included in the plan is clumped together and you can't really see the facilities in the project area. The map should be to scale and be large enough to include the location of your facility, nearby buildings or facilities, roads, culverts, drainage patterns, and nearby bodies of water.

We thank the NWB for giving us the opportunity to review the Spill Contingency Plan. Please contact me if you have any further questions or comments.

Sincerely,
