Hi Kevin,
sorry, after checking with Phyllis yesterday I must have gotten sidetracked and thought I'd replied. Phyllis indicated that from her records, the NWB has not received (and forwarded to INAC) any water use fees since the issuance of the Licence for Jericho (2AM-JER0410), approved by the Minister January 25, 2005. Based on the volume of water authorized, and our most recent consensus on the calculations, the water use fee owing would be the minimum \$30 annually.

regards,

Dave

Subject: Water Use Fees Tahera

Dave - I was wondering if you could help me out - we are preparing a statement of claim and (I know you are busy) I need to know if Tahera owes any water use fees. Thanks, KB
