Dear Ms. Filiatrault:

**Re: Keewatin Regional Land Use Plan, Term 3.5
Review of Issues**

I am very interested in the land use planning process, which is ongoing in the Baker Lake area concerning uranium exploration and mining.

Term 3.5 of the Keewatin Regional Land Use Plan states that:

Uranium development shall not take place until the NPC, NIRB the NWB and the NWMB have reviewed all of the issues relevant to uranium exploration and mining. Any review of uranium exploration and mining shall pay particular attention to questions concerning health and environmental protection.

At your earliest convenience, would you be able to inform me whether the NWB has reviewed all of the issues relevant to uranium exploration and mining? Has Term 3.5 been fulfilled by the NWB?

I look forward to hearing from you.

Sincerely,

Hugh Wilkins
