Re: Request for Hard Copies of AREVA Resources Canada Inc.'s Draft Environmental Impact Statement for the "Kiggavik" Project

Dear Frederic Guerin:

On May 4, 2011 the Nunavut Impact Review Board (NIRB or Board) distributed correspondence to interested parties indicating that the *Final* Environmental Impact Statement (EIS) Guidelines document was issued to AREVA Resources Canada Inc. (AREVA or Proponent) on May 3, 2011 pursuant to section 12.5.2 of the Nunavut Land Claims Agreement, for use in creating an EIS submission which addresses the information requirements of the public review process for this proposed development. As part of this correspondence, the NIRB also requested that those interested parties requiring a hard copy of the Proponent's future *draft* EIS submission provide their mailing addresses and the required number of copies to the Board. The NIRB is forwarding the list of parties that have requested hard copies and/or digital copies of the future *draft* EIS submission from AREVA (see attached).

The Board expects the Proponent will continue to follow up with authorities responsible for potentially authorizing this proposed Project and supply sufficient hard copies of the future *draft* EIS submission for review purposes.

If you have any questions or require further clarification, please do not hesitate to contact me directly at sgranchinho@nirb.ca or (867) 793-4633.

Sincerely,

Sophia Granchinho
Technical Advisor
Nunavut Impact Review Board
