Dear Mr. Barry:

Re: Submission of Environmental Impact Statement for the Kiggavik Project to the Nunavut Impact Review Board

On behalf of AREVA Resources Canada Inc. (AREVA), I am pleased to notify you that the Environmental Impact Statement (EIS) for the Kiggavik Project has been completed, with digital copies delivered and the remainder of hard copy material to arrive at the Cambridge Bay office shortly. Packages will be tracked and any anticipated delay in arrival will be communicated to the Nunavut Impact Review Board (NIRB). The EIS has been prepared to address issues identified by the NIRB and interveners throughout the scoping and guideline development process.

As discussed with Ms. Sophia Granchinho, Technical Advisor, these advance copies are intended to assist the NIRB with the conformity review to the Final Guidelines for the preparation of an Environmental Impact Statement that were issued to AREVA on May 3, 2011. Hard and digital copies of the EIS will be distributed to the remainder of the Kiggavik Project distribution list during the first part of January 2012.

We look forward to working with the Board and staff, as well as with interested interveners, as the review process for the Kiggavik Project continues.

Yours truly,
