Bcc: Distro Lupin <distro-2am-lup@nwb-oen.ca>

Good afternoon,

Further to the Nunavut Water Board's (NWB or Board) correspondence[1] of March 29, 2019, with respect to the technical review of the Type "A" Water Licence Application 2AM-LUP1520 and supporting documentation (the Application) submitted by Lupin Mines Incorporated (LMI or Applicant) for Lupin Mine Project, the Board received on or before April 30, 2019, comments from the following intervening parties:

- Crown-Indigenous Relations and Northern Affairs Canada (CIRNAC); and
- Environment and Climate Change Canada (ECCC).

Copies of the comments received from Intervening parties, submissions from the Applicant and all documents associated with the Application have been placed in the Board's Public Registry and made available through the NWB's FTP site using the following link:

<ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-LUP1520%20LMI/>

On May 17, 2019, the Applicant provided responses to interveners' comments. The Applicant is advised to review all submissions, including intervening parties' comments on the technical review of the Application in preparation for the upcoming Technical Meeting and Pre-Hearing Conference (TM/PHC).

During the Technical Meeting the Applicant and intervening parties will be required to provide PowerPoint (or PDF) presentations pertaining to LMI's Application and the technical review submissions to the Board. It should be noted that intervening parties are expected to indicate during their presentations whether or not the issues that they have identified have been or will be addressed by the Applicant to their satisfaction prior to the Board's processing of the Application proceeding to a Hearing. Intervening parties are requested to provide an executive summary of their interventions complete with Inuinnaqtun translations.

In its previous correspondence dated March 29, 2019, the Board directed the staff of the NWB to hold a Technical Meeting and Pre-hearing Conference (TM/PHC) in person during the week of June 3rd. After reviewing logistics and the existing schedule of Board events, the Board has tentatively scheduled the TM/PHC to extend over two days, on June 6 and 7, 2019.

In preparation for the TM and PHC, the Board has attached a copy of a draft agenda and requests that interested persons provide relevant comments to the NWB's Licensing Department at licensing@nwb-oen.ca by 3:00 p.m. MT, Wednesday May 29, 2019. In addition to comments on the agenda, interested parties are asked to also provide the following information along with their submissions:

- confirm the attendance of their organization, group or individual;
- provide the names of the individuals who will be participating on their behalf in the TM and PHC respectively; and
- Identify whether they wish to make a formal presentation of their submissions during the TM/PHC.

Following receipt of this information the NWB will distribute a final version of the agenda in advance of the TM and PHC, confirming the dates and location of the TM/PHC, as well as the names of the participating organizations and/or persons who have confirmed their attendance.

In addition, the Applicant and intervening parties intending to make presentations during the TM/PHC must provide to the NWB, for public distribution and posting on the Board's registry, copies of their presentation materials (including the Applicant's and Intervenors' presentations). These materials should be provided in English and Inuinnaqtun along with a

summary in French, preferably in PDF/PowerPoint format, less than 3 MB/file size), no later than 3:00 p.m. MT, May 29, 2019.

If any parties/persons have technical questions or require clarification with respect to the above, please contact Derek Donald, Technical Advisor by email at derek.donald@nwb-oen.ca. For procedural and administrative inquiries please contact Richard Dwyer, Manager of Licensing, by phone at (867) 360-6338 or by e-mail to licensing@nwb-oen.ca.

Regards,

Richard
