This memo serves as an erratum to the report produced by BGC Engineering entitled "2004 Geotechnical Inspection – Perimeter Tailings Dams" submitted under Part D, Item 6(g) of Water License NWB1LUP0008. These reports were produced for reclamation activities at Lupin Mine, owned and operated by Kinross Gold Corporation. Field work was undertaken by Mr. James Cassie, P.Eng., during September, 2004. This erratum should be used in conjunction with the previously mentioned report. All findings and conclusions remain consistent from the report submitted.

Within this report, incorrect water elevations for ponds and cells were given. These errors were a result from the use of an incorrect datum during field surveys completed by Kinross Gold Corporation. Table 1 provides corrected values for these pond elevations.

Table 1 Summary of Water Levels within TCA (revised)  
(Data Supplied by Kinross Gold Corp.)
