Hi Everyone,

Following up from an email exchange between Sergey, myself and Karen last week, LMI would like to formally request an extension from the NWB to submit their Annual Report on June 26, 2021, as previously agreed to between CIRNA and LMI. LMI is delayed with the annual report, including FCRP Rev. 2 addendums due to a number of factors including but not limited to: health issues, change of contractors for the site work and getting them up to speed on what it required to complete the reclamation and closure work this year and all the COVID restrictions that are adding a much larger workload to ensure everyone is safe going to site, at site and returning home safely.

Thank you for your consideration in this matter.
