Hi Eva,

Our apologies for not being able to email this information to you yesterday. Vancouver was hit by a very bad storm and we were without power until today.

As per our August 18, 2015 correspondence we agreed to submit the following information by August 31, 2015 (late due to power outage in Vancouver):

1) Hazardous Waste Inventory:

Please see the attached pdf document which shows the hazardous waste as of August 8, 2015; amount of hazardous waste removed to August 31, 2015; and the total hazardous waste as of August 31, 2015. We continue to backhaul hazardous waste whenever possible.

2) Sampling program outside of the TCA:

The sampling program outside of the TCA has been completed, as set out by our consultant, SRK Consulting. SRK Consulting will be reviewing the data from the sampling program and we will provide the completed report to AANDC by December 31, 2015 (as agreed during the renewal process for the Type A Water Licence).

Regards,

Karyn Lewis
