

27 March 2009

Mr. Don Carr  
Technical Advisor  
Nunavut Water Board  
P.O. Box 119  
GJOA HAVEN NU X0B 1J0

Dear Mr. Carr

**Disposal of Contaminate Soil Underground  
Lupin Mine**

OZ Minerals confirms that the request to dispose of hydrocarbon contaminated soils in the underground mine workings at Lupin as per Kinross's plans articulated in their request submitted to the NWB on Feb 28, 2006 to dispose of contaminated soils underground is no longer applicable or has been addressed through the recent public hearing process for the current license renewal.

If you have any further questions, please call me at 807-346-1692.

Yours truly

A handwritten signature in black ink that reads 'Andrew Mitchell'. The signature is written in a cursive, flowing style.
