Lupin Mine (File No. NWB1LUP0008/TR/I,3)

Manager

Dear Phyllis,

KIA has received and reviewed the documents regarding the 2005 Abandonment and Restoration Plan for the Lupin Mine and the subsequent request for considering the minesite and TCA separately for the purposes of the remediation permitting process.

KIA is aware of community concerns regarding the remediation of the TCA. We recommend that the Nunavut Water Board and the proponent follow up on these concerns. It is KIA's position that the final plan for remediation of this component (TCA) of the Lupin Mine Site not be approved without community consultation.

If you have any questions, please contact either myself, Geoff Clark, or Jack Kaniak.

Sincerely,

Lynn C.
