Good afternoon Patrick,

AANDC is currently reviewing the A&R Plan and reclamation cost estimate for the renewal application for water licence 2AM-LUP0914. I'm wondering if you could provide us with a total fuel inventory for the Lupin Mine site.

We did see a cost for removal of fuel from site but we are looking for more detail. Would you be able to provide an inventory of what is in all tanks (and drums) as well as their contents (i.e., contaminated water, diesel, water contaminated diesel, waste oil, etc.). We can't seem to find any of that information on the FTP site.

Thank you,

Jean
