Dear Ms. Beaulieu

**MONTHLY REPORT FOR JULY, 2010**

**LUPIN MINE - LICENSE 2AM-LUP0914**

A care and maintenance crew was on site at Lupin throughout the month of July, 2010. During this time frame 50.50 m<sup>3</sup> of water were withdrawn from Contwoyto Lake for domestic use. Sewage was discharged to the sewage lakes system directly. There were no discharges from the Sewage Lakes System at monitoring point LUP-14, nor was there a discharge from the Tailings Management Facility at monitoring point LUP-10 or a discharge from the bulk fuel storage facility at Monitoring Point LUP-27.

We trust this provides the information required in the license for the monthly report of activities at Lupin. If you have any questions, please do not hesitate to contact me. I can be reached by phone at 778-373-5584 (direct line) or by e-mail at [andrew.mitchell@mmg.com](mailto:andrew.mitchell@mmg.com).

Yours truly
