

29 October 2010

Ms. Phyllis Beaulieu
Manager of Licensing
Nunavut Water Board
P.O. Box 119
Gjoa Haven, Nunavut X0B 1J0

Dear Ms. Beaulieu

MONTHLY REPORT FOR SEPTEMBER, 2010

LUPIN MINE - LICENSE 2AM-LUP0914

A care and maintenance crew was on site at Lupin until September 9th, 2010. After that date the site was shut down for the winter. A small crew was on site from September 19 to 21st doing environmental work in the region, however services were not in service during this time. During this time frame 20 m³ of water were withdrawn from Contwoyto Lake for domestic use. Sewage was discharged to the sewage lakes system directly. There were no discharges from the Sewage Lakes System at monitoring point LUP-14, nor was there a discharge from the Tailings Management Facility at monitoring point LUP-10 or a discharge from the bulk fuel storage facility at Monitoring Point LUP-27.

We trust this provides the information required in the license for the monthly report of activities at Lupin. If you have any questions, please do not hesitate to contact me. I can be reached by phone at 778-373-5584 (direct line) or by e-mail at andrew.mitchell@mmg.com.

Yours truly

A handwritten signature in black ink that reads "Andrew Mitchell".

Andrew Mitchell
