Dear Ms. Beaulieu

MONTHLY REPORT FOR MARCH, 2011

The site was shut down for the winter in September of 2010. During the month of March 2011, no water was withdrawn from Contwoyto Lake at Monitoring Point LUP-01 and no sewage was discharged to the sewage lakes system. There were no discharges from the Sewage Lakes System at monitoring point LUP-14, nor was there a discharge from the Tailings Management Facility at monitoring point LUP-10 or a discharge from the bulk fuel storage facility at Monitoring Point LUP-27.

We trust this provides the information required in the license for the monthly report of activities at Lupin. If you have any questions, please do not hesitate to contact me. I can be reached by phone at 778-373-5584 (direct line) or by e-mail at andrew.mitchell@mmg.com.
