Dear Ms. Beaulieu

**RE: Monthly Report for September 2011
Lupin Mine, Nunavut, License Number 2AM-LUP0914**

Phyllis, we had 297 man days for the month of September. They were accommodated in the 1300 building located on the south shore of Contwoyto Lake to the north of the mine/mill complex. Domestic water was drawn from Contwoyto Lake and carried in pails to the camp for dishwashing. Dish water and sanitary waste was placed in a pit privy near the cabin. The total water use is estimated to be 18,000 GAL.
