Dear Ms. Beaulieu

RE: Monthly Report for March 2012
Lupin Mine, Nunavut, License Number 2AM-LUP0914

Activities on site during the month of March primarily included site maintenance activities. We had 515 person days for the month of March, with up to 23 people on site. Accommodation arrangements remain unchanged from February.

Domestic water use for the month was estimated to be 163,118 L (163.1 m³), drawn from Contwoyto Lake. Approximately 154,962 L (155.0 m³) of sewage was produced and discharged to the upper sewage lake.

Domestic waste was stockpiled in a lined megabag in a secure, steel container, and backhauled and disposed of at a third party facility in Yellowknife.

There were no discharges to the environment.

If you have any questions regarding the above, please do not hesitate to contact me.

Sincerely,
Lupin Mines Incorporated.
