28 May 2012

Ms. Phyllis Beaulieu
Manager of Licensing
Nunavut Water Board
P.O. Box 119
Gjoa Haven, NU
X0B 1J0

Dear Ms. Beaulieu

RE: Monthly Report for April 2012
Lupin Mine, Nunavut, License Number 2AM-LUP0914

Activities on site during the month of April primarily included site maintenance activities. We had 593 person days for the month of April, with up to 28 people on site. Accommodation arrangements remain unchanged from March.

Domestic water use for the month was estimated to be 170,170 L (170.2 m³), drawn from Contwoyto Lake. Approximately 161,662 L (161.7.0 m³) of sewage was produced and discharged to the upper sewage lake.

For the first half of the month, domestic waste was stockpiled in a lined megabag in a secure, steel container, and backhauled and disposed of at a third party facility in Yellowknife. A new incinerator was installed and became operational on April 23 after which domestic garbage was incinerated daily.

There were no discharges to the environment.

If you have any questions regarding the above, please do not hesitate to contact me.

Sincerely,
Lupin Mines Incorporated.

Sharleen Hamm
Manager, Environment and Community Affairs
