

AGNICO-EAGLE MINES LTD.
Meadowbank Division

December 20, 2007

Mr. Richard Dyer, Licensing Administrator,
Nunavut Water Board
PO Box 119,
Gjoa Haven, NU,
X0B 1J0
Canada

**Reference: 2AM-MEA – Meadowbank Gold Project Water License Application
Navigable Waterways Protection Act Approval Applications to
Transport Canada for the East Dike, Stormwater Dike and TSF**

Please find enclosed copies of the two applications to Transport Canada sent in on December 20, 2007 requesting approval under the Navigable Waterways Protection Act covering the planned construction of the East Dewatering Dike, the Stormwater Dike and Tailings Storage.

I have enclosed a CD ROM containing the supporting documents sent to Transport Canada as part of these two applications. These supporting documents had previously been filed by Agnico-Eagle Mines Limited with the Nunavut Water Board as part of previous submissions with the exception of the November 24, 2006 Report on Bathymetric Surveys prepared by Golder Associates. This bathymetry survey was part of the NIRB environmental assessment process. The individual figures provided to Transport Canada with these two applications were drawn from other supporting documents already submitted to the NWB.

Regards,
Agnico-Eagle Mines Ltd.
