Hi Ryan,

On February 18, 2016, the Agnico-Eagle Mines Limited (AEM) applied for a modification: Vault Pit Expansion under Part G Item 1 of the Licence 2AM-AEM1525 that states:

The Licensee may, without written consent from the Board, carry out Modifications provided that such Modifications are consistent with the terms of this Licence and the following requirements are met:

a. The Licensee has notified the Board in writing of such proposed Modifications at least sixty (60) days prior to beginning the Modifications;

b. Such Modifications do not place the Licensee in contravention of the Licence or the Act;

c. Such Modifications are consistent with the NIRB Screening Determination;

d. The Board has not, within sixty (60) days following notification of the proposed Modifications, informed the Licensee that review of the proposal will require more than sixty (60) days; and

e. The Board has not rejected the proposed Modifications.

This is to inform you that the NWB will require additional time to prepare its response, and is kindly requiring an extension of a week to the 60 days timeline. The NWB will endeavor to provide AEM with its response by April 25th, 2015.
