Dear Parties,

This correspondence is regarding Agnico Eagle Mines' request for a 2AM-MEA1525 Licence modification for in-pit deposition of tailings. While NWB understands that NIRB's recommendations for the activity are under the Minister's review at the moment, we would like to request an update on the parties' discussions with the Licensee.

NRCCan: thank you for your submission made on November, 21. While the submitted meeting minutes are useful in understanding the discussion, would you please file a summary outlining NRCCan's outstanding information requests?

CIRNAC and DFO: there were several information requests from each Department. Could you please let the Board know if there were any subsequent discussions held with the Licensee? If so, could you please update on the outcome?

KIA: the latest submission from KIA received by the Board was of the intention to review the lease agreement. Could you please update if the review took place and if an agreement with the Licensee was reached?

Licensee: you are welcome to file any submissions / updates you deem beneficial.

All parties: if you find that a verbal discussion is useful, please let us know, and NWB can arrange a teleconference early next week.

Thank you,

Assol Kubeisinova-
