COMMENT FORM FOR NIRB SCREENING

Concerns about the project: *local development in the area*

The development of the mine may result in an increase in the population which would increase demands on services and housing, however there is an adequate supply of residential commercial and industrial lots in Baker.

Suggestions or Recommendations:

Tank farm/ Marshaling Area: Planning and Land Headquarters of CG&T in Kugluktuk must approve Subdivision Plan – Condition NIRB must approve the plan first. Land application can then be submitted to the Hamlet and once that has been approved a Development Permit must be obtained.

Support of Project Proposal? **Yes**

Approved, with the condition that all by-laws are obeyed and the plans have been approved by the Fire Marshal's office.
