Subject: NIRB-Meadowbank Information: Second Submission

Dear Parties:

On August 19, 2005 NIRB received a second submission of information from Cumberland Resources Limited to address a number of the items listed in Appendix 1 of the NIRB's "*Pre-Hearing Decision Concerning the Meadowbank Gold Project*", July 14, 2005. The second submission of information addresses the following items in Appendix 1:

- Item 30 and 30a – Location of reference Lakes including those outside the mine area where baseline data were collected.
- Item 40 – AVS and SEM results
- Item 101 – Additional documentation on consultation results
- Item 102 – Update on installation of two multiple particulate samplers to measure particulate concentrations at the project site
- Item 103 – Detailed reporting protocol for air quality modeling and management program
- Item 104 – Conceptual description of the potential for dust from tailings resulting from extreme wind
- Item 105 – Commitment to performing at least two days of sound level monitoring per year
- Item 106 – Potential mitigation measures that may need to be implemented with regards to results from ambient disbursement noise monitoring at North Camp.

Cumberland's submission containing this information is available from the NIRB ftp site at http://ftp.nunavut.ca/nirb/03MN107-MEADOWBANK_GOLD_PROJECT/02-REVIEW/07-TECH_MTG_PHC/156_050819-CRL-MB-Commitments_Submission2-ITAE/
