Re: **The Nunavut Impact Review Board's 2007 Annual Monitoring Report for the Meadowbank Gold Project**

---

Dear Ms. Filiatrault:

Please find enclosed the Nunavut Impact Review Board's (NIRB's) 2007 Annual Monitoring Report (Monitoring Report) for the Meadowbank Gold Project.

Please note that a number of recommendations have been made (see pages 10 and 23) with regard to the 2007 monitoring activities. Accordingly, the NIRB has requested a Plan of Action from Agnico-Eagle Mines Limited (AEM) which will provide a firm timetable for implementation that addresses these recommendations.

For your information, AEM may be in contact with the Nunavut Water Board as a result of the recommendations made within the NIRB's Monitoring Report.

Should you have any questions, please do not hesitate to contact me at 867-983-4618 or [ahanson@nirb.nunavut.ca](mailto:ahanson@nirb.nunavut.ca).

Sincerely,

*[original signed by]*

Amanda Hanson  
Assistant Technical Advisor  
Nunavut Impact Review Board
