Subject: RE: NIRB 10XN039: Opportunity to Address Comments for Agnico-Eagle Mines Ltd.'s "Meadowbank Airstrip Expansion" project proposal

Hi Amanda

After discussion with the GN, the work to be complete on noise is more important of what we anticipated. We ask NIRB to extend the submission to September 3, 2010 to be able to submit a full submission.

Thank you

Stéphane Robert

Hi Stéphane –

I've followed up with Allison at the GN regarding the submission of AEMs updated Noise Abatement Plan and Noise Exposure Forecast for the Meadowbank Airstrip Expansion project proposal. The GN has indicated that they would appreciate an opportunity to review and provide further comments on these items, if necessary. As such, we would request that AEM prepare a comprehensive response to comments,

100803-10XN039-AEM Email NIRB Request Extension to Address Comments-IT4E including the Noise Abatement Plan and Noise Exposure Forecast. If further time will be required to prepare this submission (as discussed), please indicate so via response to this email. Also, if this is the case, please indicate when AEM anticipates being able to provide the complete submission.

Thank you,

Amanda
