

## SCIENTIFIC RESEARCH LICENCE APPLICATION LAND, FRESHWATER & MARINE BASED RESEARCH

NRI strongly recommends that applicants review the following documents prior to submitting an application: *Scientific Research Licencing Guidelines* and *Negotiating Research Relationships in Inuit Communities: A Guide for Researchers*.

### IMPORTANT

This application fulfills the requirements for the NIRB environmental screening. Please be advised that your application will not be processed until the application form, project summary, and maps are received.  
All documents should be uploaded in the following formats: MS Word, Adobe PDF or jpeg.

### SECTION 1: APPLICANT INFORMATION

1a. Project Title Assessment of TSS Sedimentation on Macroinvertebrate Benthic Communities in Arctic Inland Lakes

1b. Project Number

Please indicate if applicant has submitted any previous application(s) to NRI related to this project proposal?

Yes ( ) No (x)

If yes, please indicate the previous NRI licence number: \_\_\_\_\_

Please indicate if applicant has submitted any previous application(s) to NIRB related to this project proposal?

Yes (x) No ( )

If yes, please indicate the previous NIRB licence number(s): Project Certificate NIRB No.004

2. Applicant's full name and mailing address:

Ryan VanEngen  
Bovey Building: University of Guelph  
50 Stone Rd N1GEW1, Guelph ON

Phone: 519.400.7979  
Fax: \_\_\_\_\_  
Email: rvanenge@uoguelph.ca

3. Field Supervisor's name and mailing address:

Ryan VanEngen  
Bovey Building: University of Guelph  
50 Stone Rd N1GEW1, Guelph ON

Phone: 519.400.7979  
Fax: \_\_\_\_\_  
Email: rvanenge@uoguelph.ca

4. Other Personnel list (name, position, affiliation)

Dr. Keith Solomon (Academic Advisor, Professor) \_\_\_\_\_  
Dr. Paul Sibley (Academic Advisor) \_\_\_\_\_  
\_\_\_\_\_

### SECTION 2: AUTHORIZATION NEEDED

1. Indicate all authorizations associated with the project proposal:

- |                                                                                |                                                               |
|--------------------------------------------------------------------------------|---------------------------------------------------------------|
| <input type="checkbox"/> Regional Inuit Association (RIA)                      | <input type="checkbox"/> Canadian Launch Safety (CLS)         |
| <input type="checkbox"/> Nunavut Water Board (NWB)                             | <input type="checkbox"/> Environment Canada (EC)              |
| <input type="checkbox"/> Nunavut Planning Commission (NPC)                     | <input type="checkbox"/> Department of Environment (GN)       |
| <input type="checkbox"/> Department of Indian And Northern Development (DIAND) | <input type="checkbox"/> Department of National Defense (DND) |

- ☐ Department of Fisheries and Oceans (DFO)
 ☐ Hamlet  
☐ Community Government & Services (CG&S)
 ☐ Parks Canada (PC)  
☐ Nunavut Research Institute (NRI/GN)
 ☐ Canadian Wildlife Service (CWS)  
☐ Department of Culture, Language, Elders, and Youth (CLEY/GN)
 ☐ Other (please specify):  
 \_\_\_\_\_

2. List the active permits, licences, or other rights related to the project proposal and their expiry date:

Permit:	Expiry Date
_____	_____
_____	_____

3. Have you applied for all authorizations required to conduct the project proposal activities?

☐ Yes

☐ No

### SECTION 3: PROJECT PROPOSAL DESCRIPTION

1. Indicate the activities related to the project proposal:

- |                                                                                                                                                                                                                           |                                                                                                            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> Temporary camp (to be removed at end of field season)                                                                                                                                            | <input type="checkbox"/> Soil disposal/ soil storage                                                       |
| <input type="checkbox"/> Permanent camp (to remain for life of authorization)                                                                                                                                             | <input type="checkbox"/> Incineration of combustible wastes and removal of non-combustible wastes          |
| <input type="checkbox"/> Construction of recreational or safety cabin                                                                                                                                                     | <input type="checkbox"/> River/ stream/ lake crossing or work/ bridge                                      |
| <input type="checkbox"/> Temporary fuel storage (to be removed at end of field season)                                                                                                                                    | <input type="checkbox"/> Drainage alteration                                                               |
| <input type="checkbox"/> Permanent fuel storage (to remain for life of authorization)                                                                                                                                     | <input type="checkbox"/> Geoscientific sampling by diamond drilling                                        |
| <input type="checkbox"/> Placement of structures for life of permit (other than camp or cabin " i.e. scientific instruments)                                                                                              | <input type="checkbox"/> Geoscientific sampling by soil sampling                                           |
| <input type="checkbox"/> Placement of permanent structures (other than camp or cabin " i.e. scientific instruments)                                                                                                       | <input type="checkbox"/> Geoscientific sampling by trenching                                               |
| <input type="checkbox"/> Air surveys (i.e. geophysical, wildlife)                                                                                                                                                         | <input type="checkbox"/> Geoscientific sampling by borehole core                                           |
| <input type="checkbox"/> Use of aircraft/watercraft/land vehicle for personnel drop-off and pick-up to project location                                                                                                   | <input type="checkbox"/> Blasting                                                                          |
| <input checked="" type="checkbox"/> Use of on-site mechanized vehicles (i.e. atv, snowmobile, truck, zodiac)                                                                                                              | <input type="checkbox"/> Channeling                                                                        |
| <input type="checkbox"/> Sewage or grey water disposal via sump                                                                                                                                                           | <input type="checkbox"/> Excavation                                                                        |
| <input type="checkbox"/> Hazardous waste storage or disposal                                                                                                                                                              | <input type="checkbox"/> Hydrological testing                                                              |
| <input type="checkbox"/> Solid waste disposal                                                                                                                                                                             | <input type="checkbox"/> Abandonment and restoration                                                       |
| <input type="checkbox"/> Chemical storage                                                                                                                                                                                 | <input type="checkbox"/> Site restoration (fertilization/ grubbing/ scarification/ spraying/ recontouring) |
| <input type="checkbox"/> Explosives storage                                                                                                                                                                               | <input checked="" type="checkbox"/> Research                                                               |
| <input type="checkbox"/> Soil testing                                                                                                                                                                                     | <input type="checkbox"/> Ecological survey                                                                 |
| <input type="checkbox"/> Harvesting                                                                                                                                                                                       | <input type="checkbox"/> Removal of vegetation for scientific purposes                                     |
| <input checked="" type="checkbox"/> Other: <b>Note: Meadowbank Mine Site facilities will be used for research purposes. No additional structures will be constructed, no increase in water use or waste accumulation.</b> |                                                                                                            |

2. Personnel

Total No. of personnel on site = (A)	2	Total No. of days on-site = (B)	50	Total No. of Person days (A) Ã— (B) =	100
--------------------------------------	---	---------------------------------	----	---------------------------------------	-----

3. Timing

Period of operation:	July 1, 2010	to	Sept. 30, 2011
Proposed term of authorization:	_____	to	_____

Please outline the phases of the proposed project (construction/ operation/ decommissioning) including the timing and scheduling of each phase.

The Meadowbank mine site facilities will be used for research purposes. Planning and field data collection will begin in July 2010 and continue through the open water season.

If needed on-ice sampling may be completed in the fall and a second field season may commence in July 1, 2011 and be completed Sept 30, 2011.

#### 4. Location(s) of data collection:

Location Name	Region North Baffin, South Baffin, Kivalliq, Kitikmeot	Co-ordinates Lat (degree / minute), Long (degree / minute)	NTS Map Sheet Nr.	Land Status Crown, Commissionersâ€™, Inuit Owned
Meadowbank Mine Site	Kivalliq	65°00	6H	IOL
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

If the project proposal includes a **camp**, please provide the coordinates of the camp location

Lat (degree/minute) \_\_\_\_\_ Long (degree/minute) \_\_\_\_\_

NTS Map Sheet Nr. (if different from above) \_\_\_\_\_

Please attach maps (preferably 1:250,000 scale) which clearly indicate camp sites and research sites. PDF, jpeg or tiff versions are requested.

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

The Nunavut Impact Review Board may require additional location information in a subsequent Project Specific Information Requirement (PSIR) submission. This may take the form of a digital Geographic Information Systems (GIS) file.

#### SECTION 4: NON-TECHNICAL PROJECT PROPOSAL DESCRIPTION

Please attach a non-technical description of the project proposal, no more than 500 words, in English and Inuktitut (+ Inuinnaqtun, if in the Kitikmeot). The project description should outline the following:

- Project Title
- Researcher's Name and Affiliation
- Project Location
- Timeframe
- Project Description
  - purpose
  - goals & objectives
  - method of transportation
  - any structures that will be erected (permanent / temporary)
  - restoration / abandonment plans
- Methodology
  - collection protocol
  - collection mechanisms
  - indicate why specific communities or individuals were selected for your research
- Data
  - short term & long term use of data
  - other uses of data
- Reporting
  - How will the research results be communicated to the individual participants, communities, regional and Nunavut organizations?
  - Will the research result in a publication?

\_\_\_\_\_

## SECTION 5: MATERIAL USE

## 1. List equipment (including drills, pumps, aircrafts, vehicles etc.):

Equipment type and number	Size & dimensions	Proposed use
All equipment will be provided by Meadowbank Mine site		
Truck	1/2 tonne pickup	Transportation to boat
Motorized Boat	18 ft aluminum with 15 hp motor	Lake sampling

## 2. Detail fuel and hazardous material use:

Fuel	Number of Containers and Capacity of Containers	Total Amount of Fuel (in Litres)	Proposed Storage Methods
Diesel			
Gasoline			
Aviation fuel			
Propane			
Other			
Hazardous Materials and Chemicals		Total Amount of Hazardous Materials and Chemicals (in Litres)	

## 3. Detail daily water consumption rates

Daily amount (in Litres)	Proposed water retrieval methods	Proposed water retrieval location

## 4. Have you applied for a Class A Licence with the Nunavut Water Board?

( ) YES ( ) NO

## SECTION 6: WASTE DISPOSAL AND TREATMENT METHODS

## 1. List the types of waste:

Type of waste	Projected amount generated	Method of Disposal	Additional treatment procedures
Sewage (human waste)			
Greywater			
Combustible wastes			
Non-Combustible wastes			
Overburden (organic soil, waste material, tailings)			
Hazardous waste			
Other:			

## 2. Will you be incinerating combustible waste, removing all solid waste, and removing the ash generated from incineration?

( ) YES

( ) NO

## SECTION 7: COMMUNITY INVOLVEMENT &amp; REGIONAL BENEFITS

## 1. List the community representatives that have been contacted and provide the minutes of the meetings if available:

Minute \_\_\_\_\_

Community	Name	Organization	Date Contacted
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

2. How will the proposed project benefit Nunavut? Will your project provide local employment or training opportunities? Please specify.

The proposed study will benefit Nunavut by providing an evidence based approach to evaluating the impacts of industrial disturbance on aquatic ecosystems for future decision making.

At least one local person will be employed as a field assistant. As a field assistant this person will be trained in environmental field sampling. This may lead to employment at the Meadowbank mine site within the Enviro Department.

3. Please describe the nature of local services and/or logistic support that will be required from local communities, eg. Equipment, accommodations, outfitting, translations...

The Meadowbank project works closely with the Hamlet of Bake Lake and the Kivalliq Inuit Association on an ongoing basis.

The research project is limited to the Mine Site Project Lake Area and is not expected to raise concerns within the community given that the research dove-tails with the aquatic monitoring programs currently permitted at the mine-site.

No public access is permitted past km 85 of the mine road, therefore there should be no concerns for this project.

4. Describe and attach documentation regarding community support or concerns for the proposed project?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

5. Is there a traditional knowledge component to this research project? If yes, please explain:

No

\_\_\_\_\_

\_\_\_\_\_

---

#### SECTION 8: GENERAL QUESTIONS

---

1. Do you give NRI permission to publish project information in the Nunavut Research Institute Annual Compendium of Research Undertaken in Nunavut?

☒ YES

☐ NO

2. Is the proposed research associated with International Polar Year (IPY)?

☐ YES

☒ NO
