**Subject:** Re: Use of Evidence from Meadowbank Public Hearing in support of Type B Application - 2AM-MEA----, 8

INAC Water Resources suggests to the Nunavut Water Board should use a combination of the two options. INAC believes that the Nunavut Water Board may use the information gathered during the review of Agnico Eagle's application for a Type A Licence for its Meadowbank Gold Project (2AM-MEA) in the Kivalliq Region for nearby and related projects such as the Tehek Lake, as long as the information is pertinent and the interveners and proponent are kept aware of the information used.
